Dear Andrew

I am writing to thank Aurora Ozone for the generous support it gave to the *2012 Sustainable Farms, Sustainable Island* conference by providing accommodation for our guest speakers. The support we received enabled us to obtain nationally recognised speakers that were greatly appreciated by the conference delegates.

The conference was an overwhelming success with over 100 people including farmers, off-Island land-holders, local residents and Government and non-Government agencies attending and exploring the relationship between agriculture and biodiversity as presented by off-Island and local presenters. We intend to place the presentations of the key speakers onto our website www.kinrm.sa.gov.au so more details of their presentations can be found there. It was also inspiring to hear from the students of the Kangaroo Island Community Education campuses about the natural resources and sustainable agriculture projects they are undertaking.

Please pass on our thanks to Rohan Yatawatta and his conference team. They were unfailingly patient and co-operative with the many requests that were put to them. We received a number of comments about the excellence of the conference venue.

We were pleased that Rohan was able to represent the Aurora Ozone in presenting the Local Achievers NRM Youth Award. We can provide a photo of him presenting the Award if you would like a copy for your records. Please contact Bev Maxwell at the Natural Resources Centre if you would like a copy.

Once again we would like to thank Aurora Ozone for its interest in and sponsorship of various Natural Resources Kangaroo Island projects and hope we can continue this partnership in the future.

Yours sincerely

A handwritten signature in blue ink, appearing to read 'Bill Haddrill'.
